HONEYCOMB BLINDS

Honeycomb blinds inspired by the word's nost perfect architecture – the design of the honeycomb. Because of its heappoint superimposed construction, breeds infinite beauty, it can obtain he mainimum superior while maintaining yellow in minimum quality, not only solid and light but also sound absorbing and breathable. Its UV protection and heat insulation function effectively protect household liters. The coots are holdern in the hollow layer which make it focks inspiry, and deligant. It is also easy for operation. There are many different systems available: Day & night, Top down & bottom up; sking door and Stylight. Suitable for villas, homes, start hosts, office buildings and other places.
